Re: APPLICATION FOR PUBLIC HEARING

Hosston B Zone, Reservoir A, and Hosston C Zone, Reservoir A,
BEAR CREEK FIELD, Bienville Parish, Louisiana.

Dear Sir:

EL PASO PRODUCTION COMPANY ("Applicant") hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Hosston B Zone, Reservoir A, and to the Hosston C Zone, Reservoir A, in the Bear Creek Field, Bienville Parish, Louisiana:

1. To permit Applicant to drill, designate and utilize an additional alternate unit well for HOSS B RA SUY and for HOSS C RA SUN, and an additional alternate unit well for HOSS B RA SUA and for HOSS C RA SUF, at the locations shown on the attached plats.
2. To approve an exception to the spacing provisions of Office of Conservation Order No. 78-Q, effective February 18, 1971 (applicable to the Hosston B Zone, Reservoir A), and of Office of Conservation Order No. 78-Y, effective September 11, 1980 (applicable to the Hosston C Zone, Reservoir A), for either of the proposed wells, the location of which is not in compliance with such spacing provisions.
3. To find that drilling, designation and use of each of the proposed alternate unit wells is necessary to efficiently and economically drain a portion of the Hosston B Zone, Reservoir A, and the Hosston C Zone, Reservoir A, underlying the units on which the well is proposed to be drilled which cannot be efficiently and economically drained by any existing well within these units.
4. To permit the Operator of HOSS C RA SUN and of HOSS C RA SUF to produce the allowables assigned to these units from either the unit well, any alternate unit well, or from any combination of such wells, at the option of the Operator.
5. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Hosston B Zone, Reservoir A, in the Bear Creek Field, Bienville Parish, Louisiana, was initially defined in Office of Conservation Order No. 78-Q, effective February 18, 1971, and was further defined in Office of Conservation Order No. 78-Q-8, effective July 6, 1982.
